July 30, 2014

Dear Gentlemen (College) Physicians and Surgeons,

It is really alarming to hear that more of the new trends are being prevalent to be accepted by our Physicians and Surgeons.

I am strongly encouraging you all to adhere to our Catholic Faith which the Catholic Church teaches. You have the right of freedom of conscience and religion. And these rights derive from the dignity of every human person created in the image of God.

The insist on the right of doctors to follow their conscience, and should not have to put their conscience and religious beliefs aside in the practice of their profession. I wish you all have the blessing of God to help you select your God given right to continue firmly in your profession as you have now.
