Dear Sirs and Madams:

We the undersigned express vehement objection to a proposal changing the Human Rights Code policy to require doctors to offer or to refer patients for care regarding abortions, contraception and other medical care that violates their own conscience."

I, [signature] conferred with my Spiritual Advisor, an eminent Canon Lawyer who advised me that there are no circumstances that would allow for the child in a womb to be killed by an abortion, or for the mother to be administered a contraceptive. Furthermore, no medical can be given that would terminate a patient's life.

Each person on this earth was created by Almighty God. He determines what health care should be administered to a patient, whether the patient is a Catholic, a Protestant, a member of Jewish Race, a Muslim, or a member of any other religion. No person should undergo any medical procedure that is against God's revealed Law, for example, the Ten Commandments

God's laws are universal. Everyone who is created must comply with those laws. Almighty God is Supreme and His Will must be obeyed. It can be determined by the use of one's brain power, the Natural Law. Persons living on a small, isolated island can determine that it is against the Natural Law of their Creator to cut off a hand. A woman who undergoes an abortion would know that the procedure was not natural and, therefore, against the Natural Law and Almighty God's Law.

We urge you not to change the Human Right Code as planned.
