Dear Physicians and Surgeons,
I firmly believe that end of life care should not be in the hands of people who are only concerned about euthanasia or assisted suicide. Why? Because there are many helpful and pain relieving ways as well as hospices to help people physically and mentally disabled.

My message is that you physicians and surgeons must uphold your promise "Do No Harm". If euthanasia or assisted suicide is legalized you must keep your right of conscience to refuse to participate in such a way.

I would not feel safe or happy if my physician or surgeon would participate in euthanasia or assisted suicide.

Please let me firmly believe in your goal and spirit to help and heal people only. For centuries doctors are known to be healers. Do not destroy your good name.
