To Whom It May Concern

I am sending this letter in support of the Catholic Physicians ‘charter of freedom of conscience and religion who should be allowed to make their own decisions reflecting their moral & religious beliefs.

The proposed document “Where physicians are unwilling to provide certain elements of care due to their moral or religious beliefs, an effective referral to another health care provider must be provided to the patient.” Is a violation of a physician’s rights as it compels the physician to violate his or her own conscience by being a participant in the very act the very procedure to which he or she objects in the first place.

Any citizen in this country should be allowed to practise their beliefs. And retain their Civil Rights. What the CPSO is proposing is nothing short of dictatorship and should not be allowed to go through.

Sincerely
