Dear members of the Consultation Committee,

It is for me very sad to know about the plans of the Canadian Government, the aspects about Freedom of Conscience and Religion, is one of the most sacred values that we have in our society, I consider that the policy about the immoral practices such as abortion and assisted suicide is totally immoral the implications to force doctors against their conscience is one of the most terrible decisions that you want to establish by law.

It is for that reason that I write, to express my total opposition of this kind of law in our country. I know about suffering, but I respect the human life from Conception until natural death.
